## A Centralized Storehouse

### The Vital Part of Your Cabinet

The picture above shows how the scientific arrangement of the Hoosier makes it a real helper. Storage space is above and below. There is plenty of unhampered room above and around the aluminum (or porcelain) work-table.

There are no useless little partitions to chop up the space and leave no room for work. Your cabinet must have big table space to work on. The Hoosier gives it.

COME AND SEE THESE SIX EXCLUSIVE HOOSIER FEATURES:

- 1—The all-metal glass front flour bin.
- 2—The gear-driven shaker flour sifter which makes flour light and fluffy.
- 3—Scientific arrangement—articles needed most frequently easiest reached.
- 4—Revolving caster (shown in center of illustration.)
- 5—The ingenious, big-capacity sugar bin—holds more than twice as much as most other bins.
- 6—Finally, either doors with a handy rack for small utensils, or rolling doors.

## Dr. Anna Howard Shaw Speaks Here Tuesday

Voted Preacher, Doctor, Writer and Orator to Talk for the Suffrage Cause.

Dr. Anna Shaw, who will speak in the court house here Tuesday evening, is honorary president of the National American Suffrage Association, and is the foremost suffragist among suffragists today. Preacher, doctor, writer and orator, Dr. Shaw has given her multifarious services to the cause of women ever since she discovered as a girl that women were an unprivileged and handicapped class.

Born in England, Dr. Shaw was born in Tyne, England, in 1847. When she was four years old her family came to Massachusetts, and subsequently moved to Big Rapids, Mich., where she received a common school education. At fifteen,

Miss Shaw began teaching school and taught for five years. Women were receiving little more than the three "R's" in those days, but Miss Shaw entered Albion college and then, in spite of the objections and pleadings of her family and friends, she determined to be a minister. She received her theological degree from the University of Boston, and after trying various churches and conferences, she finally found a Protestant Methodist church that would ordain her and allow her to preach. Later she took her medical degree.

Becoming deeply interested in practical reforms, Dr. Shaw resigned her pastorate to lecture for the National American Woman Suffrage Association. In 1892 she was elected vice-president of the association, in 1904 she became president, and in 1915 she resigned, and is now honorary president for life.

During the course of a number of years Dr. Shaw has spoken in nearly every state in the union, before the legislatures and the national congressional committees. She is the only woman who ever preached in the Gustav Vasa cathedral, the state church of Sweden.

Dr. Shaw is widely known among women and greatly loved for the humor, sympathy and wisdom that have characterized her upon all occasions.
